## **PART I – FINANCIAL INFORMATION**

### **Item 1. FINANCIAL STATEMENTS**

#### **Introduction to Interim Financial Statements.**

The interim financial statements included herein have been prepared by Legend International Holdings, Inc. (“Legend International” or the “Company”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (The “Commission”). Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the financial position of the Company and subsidiaries as of March 31, 2008, the results of its operations for the three month periods ended March 31, 2008 and March 31, 2007, and the changes in its cash flows for the three month periods ended March 31, 2008 and March 31, 2007, have been included. The results of operations for the interim periods are not necessarily indicative of the results for the full year.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **Foreign Currency Translation**

The functional and reporting currency of the Company is the Australian dollar.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN AUSTRALIAN DOLLARS.

(An Exploration Stage Company)  
Notes to Financial Statements

**1. ORGANISATION AND BUSINESS**

Legend International Holdings, Inc. ("the Company"), was incorporated under the laws of the State of Delaware on January 5, 2001.

Following a change of management in November 2004, the Company developed a new plan of operations for fiscal 2006, which is to engage in mineral exploration and development activities. The Company's current business plan calls for the identification of mineral properties where it can obtain secure title to exploration, development and mining interests. The Company's preference is to identify large minerals deposits with low operating costs. The Company is prepared to consider the exploration, development and mining of profitable base metal interests. At the beginning of 2006, the Company expanded its areas of interest to include diamond exploration activities and in July 2006, the Company completed the acquisition of certain diamond mining tenements in Northern Australia. Since that time, the Company has identified that those mining tenements in Northern Australia also have potential for uranium and base metals. In November 2007 and February 2008, the Company acquired mining tenements prospective for phosphate in the State of Queensland, Australia.

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has incurred net losses since its inception.

Exploration Stage Enterprise

The Company is an exploration stage enterprise. The Company is devoting all of its present efforts in securing and establishing its exploration business through field sampling and drilling programs in the State of Queensland and the Northern Territory of Australia.

**2. RECENT ACCOUNTING PRONOUNCEMENTS**

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109 (FIN 48), which provides clarification related to the process associated with accounting for uncertain tax positions recognized in consolidated financial statements. FIN 48 prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return. FIN 48 also provides guidance related to, among other things, classification, accounting for interest and penalties associated with tax positions, and disclosure requirements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this statement did not have a material effect on the Company's future reported financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements which provides enhanced guidance for using fair value to measure assets and liabilities. SFAS No. 157 provides a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. SFAS No. 157 also requires expanded disclosures to provide information about the extent to which fair value is used to measure assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. SFAS No. 157 is effective for financial statements issued in fiscal years beginning after November 15, 2007 and for interim periods within those fiscal years. In February 2008, the FASB staff issued Staff Position No. 157-2 "Effective date of FASB Statement No. 157" ("FSP FAS 157-2"). FSP FAS 157-2 delayed the effective date of FAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognised or disclosed at fair value in the financial statements on a recurring basis ( at least annually). The provisions of FSP FAS 157-2 are effective for the Company's fiscal year beginning January 1, 2009. The adoption of this interpretation has not and is not expected to have a material impact on the Company's future reported financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of FASB Statement No. 115", which permits companies to choose to measure many financial instruments and certain other items at fair value. The provisions of SFAS 159 were adopted January 1, 2008. The Company did not elect the Fair Value Option for any of its financial assets or liabilities and therefore, the adoption of SFAS 159 had no impact on the Company's consolidated financial position, results or operations or cash flows.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations" ("SFAS 141(R)"), which replaces SFAS 141. SFAS 141(R) requires assets and liabilities acquired in a business combination, contingent consideration, and certain acquired contingencies to be measured at their fair values as of the date of acquisition. SFAS 141(R) also requires that acquisition-related costs and restructuring costs be recognized separately from the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008 and will be effective for business combinations entered into after January 1, 2009. The Company is currently evaluating the potential impact of adopting this statement on the Company's financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51" ("SFAS 160"). SFAS 160 clarifies the accounting for noncontrolling interests and establishes accounting and reporting standards for the noncontrolling interest in a subsidiary, including classification as a component of equity. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company does not currently have any minority interests.

In March 2008, the FASB issued FSAB Statement No. 161 "Disclosure about Derivative Instruments and Hedging Activities-an amendment of FASB statements No. 133 ( "FAS 161") which provides revised guidance for enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FAS 133, and how derivative instruments and the related hedged items affect and entity's financial position, financial performance and cash flows. FAS 161 is effective for the Company's fiscal year beginning January 1,2009. The Company does not currently have any derivative instruments and is not involved in any hedging activities.

### 3. PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed over a period covering the estimated useful life of the applicable property and equipment.

In January 2001, 4,297,500 common shares were issued to the Company's founder for organization cost valued at A\$124,446 (US\$95,500), and 146,250 common shares were issued to a related party in exchange for consulting fee valued at A\$4,235 (US\$3,250).

In March 2002, 11,250,000 common shares were issued to the Company's founder in exchange for present and future services valued at A\$162,888 (US\$125,000).

In April 2002, the Company closed its offering under its registration statement filed with the United States Securities and Exchange Commission to sell up to 4,500,000 shares of its common stock at

US\$0.022 per share, which became effective on April 11, 2001. The Company sold 841,500 shares (616,500 shares in 2001 and a further 225,000 shares in 2002) of its common stock under the offering.

In 2003, a total of 5,026,500 common shares were issued to the Company's sole officer and director for services valued at A\$145,556 (US\$111,700) or A\$0.029 (US\$0.022) per share.

In 2004, a total of 2,004,750 common shares were issued to the Company's former sole officer and director for services valued at A\$58,053 (US\$44,550) or A\$0.029 (US\$0.022) per share.

In December 2004, the Company issued to Renika Pty Limited ("Renika"), a company associated with Mr J I Gutnick, 20,250,000 options to be converted into 20,250,000 shares of common stock, at an exercise price of US\$0.022 and a latest exercise date of December 2009 for services to be rendered to the Company. The Company undertook a Black Scholes valuation of these options using a A\$0.029 (US\$0.022) exercise price, US\$0.022 market price, 5 year life, risk free interest rate of 5.155% and a volatility of 16.7%. The 20,250,000 options were valued at A\$160,672 (US\$123,300) or A\$0.008 (US\$0.006) each. The stock options were issued for services rendered, to be rendered and for agreeing to provide financial assistance to the Company (not the actual provision of financial assistance). The issue of the stock options was not contingent upon any further services or events. The stock options are not forfeitable if the services or financial assistance are not provided. Accordingly, the value of the stock options were expensed during 2004.

In September 2005, Renika exercised the 20,250,000 options using the cashless exercise feature and were issued 17,085,937 shares of common stock.

Effective as of December 12, 2005, the Board of Directors of Company approved the distribution to all stockholders for no consideration of an aggregate of 36,135,500 non-transferable options, each of which is exercisable to purchase one share of common stock of the Company at an exercise price of US\$0.25 cents per share with a latest exercise date of December 31, 2012. The options were issued on a pro-rata basis to all stockholders of record on December 31, 2005 on the basis of two (2) options for every one (1) share of common stock owned by a stockholder on the record date. The options may not be exercised until the shares underlying the options are registered under federal and state securities laws.

The latest exercise date for the options is February 19, 2018.

The Company has accounted for all options issued based upon their fair market value using the Binomial pricing model.

An external consultant has calculated the fair value of the 400,000 options using the Binomial valuation method using the following inputs:

Grant date	Feb 19, 2008	Feb 19, 2008	Feb 19, 2008
Grant date share price	US\$1.04	US\$1.04	US\$1.04
Vesting date	Feb 19, 2009	Feb 19, 2010	Feb 19, 2011
Expected life in years	5.50	6.00	6.50
Risk-free rate	4.422%	4.422%	4.422%
Volatility	60%	60%	60%
Exercise price	US\$1.00	US\$1.00	US\$1.00
Call option value	US\$0.61	US\$0.63	US\$0.65

	<u>Options</u>	Option Price Per Share <u>US\$</u>	Weighted Average Exercise Price <u>US\$</u>
Outstanding at January 1, 2008	-	-	-
Granted	400,000	1.00	1.00
Forfeited	-	-	-
Outstanding at March 31, 2008	<u>400,000</u>	<u>1.00</u>	<u>1.00</u>

The range of exercise price is US\$1.00 per option. The weighted average per option fair value of options granted during 2008 was US\$1.00 and the weighted average remaining contractual life of those options is 10 years. No options are currently exercisable. The options were issued to one individual and in that case, the Company does not believe a retention rate is applicable.

The remaining value of the outstanding options equates to A\$257,843 (US\$234,482) and is being amortised over the vesting periods.

For the three months ended March 31, 2008, the amortization amounted to A\$19,263 (US\$17,518).

As of March 31, 2008, no options over shares were available for future grants under the Stock Plan.

## 5. AFFILIATE TRANSACTIONS

In December 2004, the Company issued to Renika, a company associated with Mr J I Gutnick, 20,250,000 options to be converted into 20,250,000 shares of common stock, at an exercise price of 5 cents and a latest exercise date of December 2009 for services to be rendered to the Company. The Company undertook a Black and Scholes valuation of these options using a 2.22 cent exercise price, 2.22 cent market price, 5 year life, risk free interest rate of 5.155% and a volatility of 16.7%. The Company valued the 20,250,000 options at A\$160,672 (US\$123,300) or A\$0.0178 (US\$0.0137) each. In September 2005, Renika exercised the 20,250,000 options using the cashless exercise feature and were issued 17,085,937 shares of common stock.

In December 2004, the Company entered into an agreement with AXIS Consultants Pty Ltd to provide geological, management and administration services to the Company. AXIS is affiliated through common management. The Company is one of five affiliated companies of which three are Australian public companies listed on Australian Stock Exchange. Each of the companies has some common Directors, officers and shareholders. In addition, each of the companies is substantially dependent upon AXIS for its senior management and certain mining and exploration staff. A number of arrangements and transactions have been entered into from time to time between such companies. It has been the intention of the affiliated companies and respective Boards of Directors that each of such arrangements or transactions should accommodate the respective interest of the relevant affiliated companies in a manner which is fair to all parties and equitable to the shareholders of each. Currently, there are no material arrangements or planned transactions between the Company and any of the other affiliated companies other than AXIS.

AXIS is a company owned by its public companies (including Legend) and any profits generated by AXIS are returned to its shareholders in the form of dividends.

AXIS is paid by each company for the costs incurred by it in carrying out the administration function for each such company. Pursuant to the Service Agreement, AXIS performs such functions as payroll, maintaining employee records required by law and by usual accounting procedures, providing insurance, legal, human resources, company secretarial, land management, certain exploration and mining support, financial, accounting advice and services. AXIS procures items of equipment necessary in the conduct of the business of the Company. AXIS also provides for the Company various services, including but not limited to the making available of office supplies, office facilities and any other services as may be required from time to time by the Company as and when requested by the Company.

The Company is required to reimburse AXIS for any direct costs incurred by AXIS for the Company. In addition, the Company is required to pay a proportion of AXIS's overhead cost based on AXIS's management estimate of our utilisation of the facilities and activities of AXIS plus a service fee of not more than 15% of the direct and overhead costs. Amounts invoiced by AXIS are required to be paid by us. The Company is also not permitted to obtain from sources other than AXIS, and we are not permitted to perform or provide ourselves, the services contemplated by the Service Agreement, unless we first requests AXIS to provide the service and AXIS fails to provide the service within one month.

The Service Agreement may be terminated by AXIS or us upon 60 days prior notice. If the Service Agreement is terminated by AXIS, the Company would be required to independently provide, or to seek an alternative source of providing, the services currently provided by AXIS. There can be no assurance that the Company could independently provide or find a third party to provide these services on a cost-effective basis or that any transition from receiving services under the Service Agreement will not have a material adverse effect on us. The Company's inability to provide such services or to find a third party to provide such services may have a material adverse effect on our operations.

In accordance with the Service Agreement AXIS provides the Company with the services of the Company's Chief Executive Officer, Chief Financial Officer, geologists and clerical employees, as well as office facilities, equipment, administrative and clerical services. We pay AXIS for the actual costs of such facilities plus a maximum service fee of 15%.

During the three months ending March 31, 2007, AXIS charged the Company A\$165,698 for management and administration services, and A\$195,715 for exploration services and charged interest of A\$8,401 on the outstanding balance and the Company repaid A\$315,400. AXIS charged interest at a rate of 10.10% for the three months ended March 31, 2007. The amount owed to AXIS at March 31, 2007 was A\$366,368.

During the three months ending March 31, 2008, AXIS charged the Company A\$694,324 for management and administration services, and A\$260,736 for exploration services. The Company repaid A\$1,337,000 including an advance for April 2008 charges. The Company charged AXIS interest of A\$7,762 at a rate between 10.80% and 11.45% for the three months ending March 31, 2008. The amount owed by AXIS at March 31, 2008 was A\$382,790.

During the three months ending March 31, 2008, the Company has further advanced AXIS A\$482,000 for ongoing business operations and charged interest of \$3,281. The Company charged AXIS interest at a rate between 10.80% and 11.10% for the three months ending March 31, 2008. The amount owed by AXIS at March 31, 2008 was A\$485,281.

Effective as of March 3, 2006, Legend entered into a Contract for the Sale of Mining Tenements ("Contract") with Astro Diamond Mines N.L. ("Astro") an Australian company pursuant to which the Company acquired certain diamond mining tenements in Northern Australia from Astro. The consideration payable by Legend to Astro was A\$1.5 million and Legend was also required to pay to Astro any costs incurred on the tenements after February 1, 2006. Astro provided commercial warranties which are usual for a transaction of this nature in favour of Legend. Under Australian law, Astro was required to provide an independent experts report to shareholders for this transaction. In order to prepare the independent experts report, a mineral valuation was prepared on behalf of Astro which indicated that the preferred value for the tenements that are the subject of the transaction was A\$1.5 million. This formed the basis of the consideration agreed by the parties. The President and Chief Executive Officer of the Company, Mr. J. I. Gutnick, was Chairman and Managing Director of Astro and Dr DS Tyrwhitt, an independent Director of the Company is also a Director of Astro. The tenements are located in the Northern Territory of Australia and are prospective for all minerals. Astro incurred costs on the mining tenements from February 1, 2006 which at settlement Legend was required to pay. However, Astro had not quantified the amount at the date of settlement and it was only finally quantified in November 2006. The consideration and all related acquisition costs, costs incurred by Astro since February 1, 2006 and exploration expenditure incurred by the Company is shown in the Statement of Operations as Exploration Expenditure.

## 6. COMMITMENTS

During December 2006, the Company entered into an operating lease agreement for a motor vehicle which expires in 2008. The lease agreement has a monthly repayment amount of A\$1,123. The future minimum lease repayments under a non-cancellable lease at March 31, 2008, were A\$8,662.

During July 2007, the Company entered into a sublease agreement for the rental of office premises which expires in 2008. The total rental payment for 2008 is A\$98,617, outstanding as at March 31, 2007 A\$79,900

During September 2007, the Company entered into a commercial hire purchase agreement for proposed on-site accommodation units, which expires in 2008. The hire purchase agreement has a monthly repayment amount of A\$20,954 and a final repayment of A\$174,280 in June 2008. The future minimum lease repayments under a non-cancellable lease at March 31, 2008 are A\$41,908 and interest of A\$7,479.

### Exploration

The Company has to perform minimum exploration work and expend minimum amounts of money on its tenements. The overall expenditure requirement tends to be limited in the normal course of the Company's tenement portfolio management through expenditure exemption approvals, and expenditure reductions through relinquishment of parts or the whole of tenements deemed non prospective. Should the company wish to preserve interests in its current tenements the amount which may be required to be expended is as follows:

	<b>2008</b>
	<b>A\$</b>
Not later than one year	1,435,000
Later than one year but not later than five years	1,080,000
Later than five years but not later than twenty one years	-
	<u>2,515,000</u>

## **7. ACQUISITIONS/INVESTMENTS**

On February 27, 2008, the Company entered into a Share Sale Agreement whereby the Company agreed to purchase all of the issued and outstanding shares of Teutonic Minerals Pty Ltd. As a result, Teutonic became a subsidiary of the Company from that date. Teutonic holds an application for a mineral licence over phosphate in the Georgina Basin in the State of Queensland, Australia. The consideration payable to the vendors was A\$300,000, and the Company granted a 1% gross revenue royalty from production from the mineral licence and incurred legal costs of A\$26,337.

The mineral licence application held by Teutonic was withdrawn on March 17, 2008 and replaced by a mineral application lodged by the Company. Teutonic had no other assets or liabilities.

As at March 31, 2008 the net assets and liabilities acquired by the Company have no value. The consideration and legal costs, A\$326,337, paid by the Company are included as exploration expenditure.

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar during the periods indicated:

3 months ended March 31, 2007	A\$1.00 = US\$.8080
3 months ended March 31, 2008	A\$1.00 = US\$.9178

### RESULTS OF OPERATION

#### Three Months Ended March 31, 2008 vs. Three Months Ended March 31, 2007.

The Company's financial statements are prepared in Australian dollars (A\$). A number of the costs, expenses and assets of the Company are incurred/held in US\$ and the conversion of these costs to A\$ means that the comparison of the three months ended March 31, 2008 to the three months ended March 31, 2007 does not always present a true comparison.

Other income increased from A\$946 for the three months ended March 31, 2007 to A\$125,009 for the three months ended March 31, 2008 which represents interest on funds in the bank of \$113,966 and A\$11,043 from affiliate companies.

Costs and expenses increased from A\$1,206,258 in the three months ended March 31, 2007 to A\$3,687,786 in the three months ended March 31, 2008. The increase in expenses is a net result of:

- a) an increase in exploration expenditure written off from A\$749,388 for the three months ended March 31, 2007 to A\$ 1,151,696 in the three months ended March 31, 2008. The exploration costs include geological/geophysical/mineral analysis contractors, salaries for contract field staff, travel costs, accommodation and tenement acquisition costs of A\$326,337 (refer Note 7) and holding costs. Drilling recommenced in April 2008 following the end of the wet season in Northern Australia.
- b) an increase in legal, accounting and professional expense from A\$25,663 for the three months ended March 31, 2007 to A\$143,675 for the three months ended March 31, 2008 as a result of the increase in legal fees for general legal work including stock transfer matters, regulatory filings, stock transfer agent fees, and audit fees for professional services in relation to the Form 10-Q and the registration statement. All fees have increased in the three months to March 31, 2008 as a result of increased activity by the Company as a consequence of the exploration program, the acquisition of mining tenements, and capital raising activities.
- c) an increase in administrative costs from A\$305,193 in the three months ended March 31, 2007 to A\$1,509,461 in the three months ended March 31, 2008 as a result of an increase in direct costs, including salaries, indirect costs and service fees, charged to the Company by AXIS from \$360,000 to \$498,519 (US\$457,541), as a result in the level of activity of the Company; the cost of the shares issued under a registration rights agreement of A\$660,494 (US\$606,201); the cost of travel and accommodation in the marketing of the Company of A\$121,902 (US\$111,882) and investor relations, tenement and other consultants of A\$87,038 (US\$79,883). The increases are as a result of the increase in activity by the Company as a consequence of the acquisition of mining tenements, preparation of regulatory filings and capital raising activities.

- d) a decrease in interest expense from A\$26,229 for the three months ended March 31, 2007 to A\$9,869 for the three months ended March 31, 2008 due to the decrease in interest bearing debt of the Company. For the three months ended March 31, 2008, interest was incurred on motor vehicle finance lease and camp lease.
- e) an increase in stock based compensation from A\$99,785 in the three months ended March 31, 2007 to A\$873,085 in the three months ended March 31, 2008 as a result of the issue of options under the 2006 Incentive Option Plan. See note 4 for further details on the options issued.

As a result of the foregoing, the loss from operations increased from A\$1,205,312 for the three months ended March 31, 2007 to A\$3,562,777 for the three months ended March 31, 2008. An increase in foreign currency exchange loss for the three months ended March 31, 2007 from \$30,571 to A\$628,057 in the three months ended March 31, 2008 was recorded as a result of the movement in the Australian dollar versus the US dollar. The net loss was A\$1,235,883 for the three months ended March 31, 2007 compared to a net loss of A\$4,190,834 for the three months ended March 31, 2008.

### **Liquidity and Capital Resources**

For the three months ending March 31, 2008, net cash used in operating activities was A\$2,060,930 (2007: A\$1,038,065) primarily consisting of the net loss of A\$4,190,83 (2007: A\$1,235,883), increase in accounts receivable of A\$735,468 (2007: A\$108,027) and offset by an increase in accounts payable and accrued expenses of A\$762,641 (2007: A\$165,218); net cash used in investing activities was A\$519,484, being for the purchase of motor vehicles, geotechnical software and equipment for A\$193,147 and the purchase of an investment for A\$326,337; and net cash provided by financing activities was A\$nil (2007: A\$1,441,396 being net proceeds from share issue of A\$2,338,646 and net repayments to affiliates of A\$897,250).

As at March 31, 2008 the Company had A\$13,879,241 in cash and A\$1,242,732 in receivables and short-term obligations of A\$1,707,290 comprising accounts payable and accrued expenses.

We plan to continue our exploration program throughout 2008 and anticipate spending A\$5,000,000 on exploration and feasibility studies. However, if exploration results are positive, we believe that we will be able to raise additional equity capital in order to progress our exploration program at a faster rate. In addition, we expect that we will need to spend \$2,000,000 on legal, professional, accounting and administration expenses.

The Company is considered to be an exploration stage company, with no significant revenue, and is dependent upon the raising of capital through placement of its common stock, preferred stock or debentures to fund its operations. In the event the Company is unsuccessful in raising such additional capital, it may not be able to continue active operations.

### **Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.**

Certain information contained in this Form 10-Q's forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in December 1995. In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation:

- The risk factors set forth in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007,
- The possibility that the phosphates we find are not commercially economical to mine,

- The possibility that we do not find other minerals or that the other minerals we find are not commercially economical to mine,
- The risks and hazards inherent in the mining business (including environmental hazards, industrial accidents, weather or geologically related conditions),
- Changes in the market price of phosphate, base metals and diamonds,
- The uncertainties inherent in our production, exploratory and developmental activities, including risks relating to permitting and regulatory delays,
- The uncertainties inherent in the estimation of ore reserves,
- The effects of environmental and other governmental regulations, and
- Uncertainty as to whether financing will be available to enable further exploration and mining operations.

Investors are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise.

Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

At March 31, 2008, the Company had no outstanding loan facilities. At March 31, 2008, assuming no change in the cash at bank, a 10% change in the A\$ versus US\$ exchange rate would have a A\$1.7 million effect on the Company's cash position.

**Item 4. Controls and Procedures.**

There have been no changes in accountants or any disagreements with accountants on any matter of accounting principles or practices or financial statement disclosures during the two years ended March 31, 2008.

(a) Evaluation of disclosure controls and procedures.

Our principal executive officer and our principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 as amended) as of the end of the period covered by this report. Based on that evaluation, such principal executive officer and principal financial officer concluded that, the Company's disclosure control and procedures were effective as of the end of the period covered by this report.

(b) Change in Internal Control over Financial Reporting.

No change in our internal control over financial reporting occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

(c) We believe that a controls system, no matter how well designed and operated, can not provide absolute assurance that the objectives of the controls system, no matter how well designed and operated, can not provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

## PART II – OTHER INFORMATION

### Item 1. Legal Proceedings.

There are no pending legal proceedings to which the Company is a party, or to which any of its property is the subject, which the Company considers material.

### Item 1A Risk Factors

An investment in the Company involves a high degree of risk.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing the Company. Other unknown or unpredictable factors could also have material adverse effects on future results.
